

BAE SYSTEMS
NEW HAMPSHIRE

The BAE Systems New Hampshire facilities manufacture aircraft self-protection systems and tactical surveillance and intelligence systems for the military. Other business areas include electronics, infrared imaging, and automated mission planning systems. Since 1999 the facilities reduced energy use and hazardous waste disposal. In 2001-2003, the facilities will reduce hazardous waste and solid waste, protect water resources, and reduce exposure to toxic substances.

ENVIRONMENTAL PERFORMANCE

Past Accomplishments

The facility reduced energy consumption with energy conservation and space consolidation and reduced hazardous waste with recycling and consolidation of facilities.

AT A GLANCE

Industry Sector:	SIC 3699
Business:	Aircraft protection systems; electronics
Facility Employees:	More than 1,000
Accomplishments:	Reduced energy use Reduced hazardous waste
2003 Commitments:	Reduced hazardous waste Reduce solid waste Reduce discharges to water Reduce exposure to toxics
Addresses:	Canal Street Facility 95 Canal Street, Nashua, NH 03060 H.W. Pope Technical Park 65 River Road, Hudson, NH 03051 South Nashua Facility 65 Spit Brook Road Nashua, NH 03061 Merrimack Facility 130 D.W. Highway No., Merrimack, NH 03054
Web Site:	www.iewns.na.baesystems.com

- C **Reduced company-wide power consumption** by 1.1% in 1999.
- C **Reduced company-wide hazardous waste** by 66% from 1998 to 1999.

Future Commitments

The facility will increase recycling and source reduction, and will increase financial investments for human health protection and natural resources protection. By 2003, the facilities will:

- C **Reduce hazardous waste** by 2% annually through recycling and source reduction
- C **Reduce solid waste** by 2% annually through recycling and source reduction.
- C **Reduce discharges to water** through investing \$120,000 in protective measures.
- C **Reduce exposure to toxics** through investing \$150,000 in protective measures.

COMMUNITY OUTREACH

External communications with the public is the responsibility of Communications Services at the corporate level. Environmental matters are referred to the environment, health and safety department, which coordinates responses. The Performance Track annual report will be made available in accordance with company procedures, which will be noted on the BAE Systems company web site.
